

FREQUENTLY ASKED QUESTIONS.

KENDALL® GT-1® HIGH MILEAGE BOOSTER

Is the GT-1 High Mileage Booster backwards compatible with ILSAC GF-5 oils?

Yes, the GT-1 High Mileage Booster can be added to Kendall GT-1 ILSAC GF-5 oils.

Will the GT-1 High Mileage Booster replace GT-1 Endurance (high mileage)?

No, GT-1 Endurance will remain in the Kendall PCMO line.

How is the GT-1 High Mileage Booster packaged and where is it available?

It is packaged in a 24/1 carton and will be available at all Phillips 66 Lubricants plants.

What Kendall GT-1 products are recommended to add the High Mileage Booster to?

GT-1 Max, Full Synthetic
GT-1 HP Elite, Premium Synthetic Blend
GT-1 High Performance, Synthetic Blend

Can the Kendall GT-1 High Mileage Booster be added to competitors' oils?

No, the GT-1 High Mileage Booster should not be added to competitors' products.

Will adding two bottles of the GT-1 High Mileage Booster increase the benefits?

No, adding more GT-1 High Mileage Booster than recommended will not increase the benefits delivered.

If I fill after a complete oil change is there any risk of overfilling?

The GT-1 High Mileage Booster has been designed to be added to the oil amount recommended for a vehicle's oil change without risk of overfilling.
